# Shopping through a PunchOut

1. On the Jaggaer homepage, click on your desired vendor's [PunchOut icon](#). You will be redirected to the vendor's website.

2. Shop and create a cart as you normally would.

3. Click on "Check Out." This will redirect you back to Jaggaer.

4. Set appropriate commodity codes to all line items.

5. Click "Proceed to Checkout" button at top right of your screen.

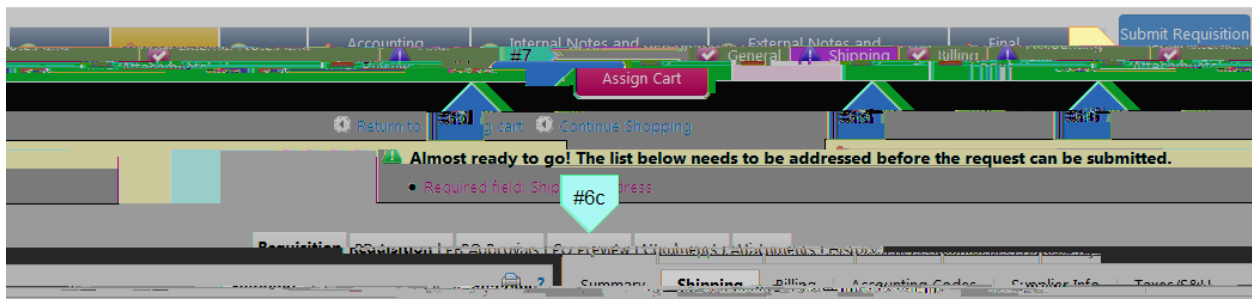

6. Click on items in progress bar that need your attention

   a. Set shipping address. Make it easier by [setting a default address](#).

   b. Set accounting codes. Make it easier by [setting a default code](#).

   c. Add comments applicable to your order that you want approvers to see.

   d. Do a final review over everything, making sure quantities and prices look correct.

7. [Assign cart if you need to](#), or submit it for approval.

8. [View status of requisition](#).

# Shopping with a non-catalog supplier

1. On the Jaggaer homepage, click on "non-catalog item," which is found under the center search bar. This will pull up a pop-window.

2. Select your desired supplier. See [shopping with an unknown supplier](#) if you cannot find your vendor.

3. Set Product Description to the item title, along with any pertinent details, such as color and size.

4. Set Catalog No., as found on supplier's website or quote.

5. Set Quantity and Price Estimate.

6. Keep Packaging at "EA6ngTd ( )T58.9( 6(K)2.6( 1  scn 2E)-8.9(A6ngTd (3gTd ( ))-6(aE)-8.9(A6ngTd ( )T58.9
a. To add a note or attachment you want only your approvers and the Purchasing Department to see, click on the Internal Notes and Attachments    tab on the progress bar, and edit as necessary.

b. To add a note or attachment you want the supplier to see/receive, click on the External Notes and Attachments    tab on the progress bar, and edit as necessary.

# Setting approval code

By setting up an approval code, you will be able to take action through email in any future requisitions. You will still need to log in to your Jaggaer portal for any pending requisitions you had prior to making an approval code.

1. Click on your name at the top of the Jaggaer homepage and navigate to View My Profile .
2. Click on Update Security Settings in the menu on the left of your screen.
3. Select Change Email Approval Code. This will pull up a pop-  up menu.
4. Create a code of your choosing. <u>Be sure to write it down somewhere so you can remember it</u>; the Purchasing Department does not have a way to look up your code if you forget it.
    a. You can always reset your approval code by logging into your Jaggaer portal and following the steps above if you forget your code.

# Creating a Quantity Receipt

You will usually get notified when orders need a [quantity receipt](#), but you should also just make it a habit to do this whenever you receive a package.

1. Navigate to the Purchase Order that needs a receipt.

2. In the top right corner, there is an Available Actions dropdown menu. Set it to "Create Quantity Receipt" and click the "Go" button.

3. Jaggaer will pre-populate the data on the top half of the page. You do not need to update any of the information there.

4. In the Line Details section, update

# When a requisition is returned

You will receive an email notification whenever something goes wrong with your requisition. In the email, be sure to view any notes that were attached at the time of return. This message will explain why your requisition was returned or rejected. Common causes are an <u>insufficient budget</u> to carry out the transaction or <u>no authority to post</u> to a certain budget. Sometimes, an approver or the Purchasing Department may reject a requisition, and reasons will also be listed in the email. Take appropriate actions (request a budget transfer, call rejecter, etc.) and once the issue has been resolved, you can resubmit the requisition.

# Viewing order status and history

To view the current status of your order, there are several options. If it was ordered through one of the PunchOut suppliers, enter the PunchOut to view your recent orders. There you will be provided with tracking information. If it was a non-catalog supplier, you can first view the history tab of your requisition to make sure it was approved and converted to a purchase order. From there, you can contact the Purchasing Department

# Shopping with Lands' End

We have a special system set up with Lands' End to ensure orders are placed correctly. The process is not quite as simple as using a PunchOut, but if you follow the steps below, you should not have any problems placing an order.

1. Start at the [La Sierra Business Outfitters website](#).

2. Shop online to create your cart. Be sure to add your desired logo to the items you are ordering.

3. Once you are ready, view your cart and click the "Start Checkout" button on the right of the screen. You can also add any promotional codes on this page.

4. You will need to log in to your Lands' End account. If you don't already have one, you can easily create an account on this page.

5. Be sure to set your shipping address and select your shipping method. In the Billing section, select "Account Payment," and then you can review and place your order. Take note of the order total while on this page.

   a. By doing this, an email will be sent to the Purchasing Department to review and approve the purchase.

6. Move back to Jaggaer, and [begin a non-catalog cart](#).

   a. In Product Description box, include a description of what you ordered. An example might be "Polo shirts for student workers in Accounting Office."

   b. Set the estimated price as whatever the order total was when you were checking out on the Lands' End site.

7. Continue through [checkout as you normally would](#) with non-catalog suppliers.

8. Once the requisition is received by Purchasing, they will approve the order via email and your order will be placed.

# Ordering business cards

1. Enter the Office Depot PunchOut.

# Airline tickets, hotel reservations, and similar purchases

If you wish to purchase airline tickets, make a hotel reservation, register for a conference, or make a similar purchase, do it through the Purchasing Department!

1. Fill out a travel authorization form and obtain proper approvals.

2. Gather all applicable data (vendors, pricing, etc.) and create a requisition in Jaggaer.  If your preferred vendor is not in our system, follow these steps to submit your requisition.

3. Once you have submitted your requisition, contact the Purchasing Department to make an appointment.

   a. Bring a copy of your travel authorization form to your appointment for their records.

   b. During your appointment, you will come to the Purchasing Department and do your online shopping at a computer there. When it is time to check out, someone there will enter the University credit card and billing information.

# Costco and Office Depot Cards

The Purchasing Department has one Costco card and two Office Depot cards available for employees to loan out. The Costco card is available to use whenever you would like to buy items there. The Office Depot cards are available to use for print and copy at our local store.

1. Contact the Purchasing Department to request a paper requisition. This is the <u>only</u> time that it is appropriate to use a paper requisition, opposed to utilizing Jaggaer.
   a. Be sure to properly indicate the vendor you want to use and the accounting code(s) you want to charge.

# Summary of purchasing process

1.  A department has a need.

2.  A cart is filled out and submitted in Jaggaer.

3.  The budget is automatically checked by Banner.

4.  A requisition is created.

5.  The requisition goes through an approval process.

6.  The requisition goes under purchasing review.

7.  The requisition is approved by the Purchasing
